Read the passage given below carefully :

I was shopping in my home town, when I heard a young voice. "Mum, come here, there's a lady my size." The mother rushed to the boy who looked about seven; then she turned to me to apologise. I smiled and told her "It's okay." Then I looked at her wide-eyed son. He studied me from head to toe and asked, "Why are you so little ?" "It's the way God made me. Some people are little. Some are tall. I'm just not going to grow any bigger."

My life as a little person is filled with stories like that. I enjoy talking to children and explaining why I look different from their parents. It took many years of developing my confidence. I stand three feet nine inches tall. I am an achondroplasia dwarf, which is a person having very short limbs. When I was born, my mother was told I was a dwarf. Our family doctor put her mind at ease when he told her that I would not have any major medical concerns.

As time went on I tried to smile and accept the fact that I was going to be noticed all my life. I was determined to make my uniqueness an advantage rather than a disadvantage. People look in disbelief when they see me get out of my car on the driver's side. During those times I try to keep a good attitude. When people are rude I remind myself, "Look what else I have - a great family, nice friends." When I talk to children they leave content that their questions have been answered. My hope is that in spending time with them I will encourage them to accept their peers, whatever size and shape they come in, and treat them with respect.

Given below is an informative passage. Interpret it in order to complete the flowchart in a single word or a phrase to bring out the main topic and sub-topics in the passage :

Today many varieties of tea and tea brands are available in the market. An innovation is the tea-bag that is easy, quick and less messy than the traditional ways of brewing tea. Green tea is popular in China and the Far

East. In Japan, the tea ceremony is a traditional way of greeting guests and is a social occasion. Unlike the tea we are familiar with, green tea is not drunk with sugar or milk. It is an olive coloured liquid served in porcelain cups. In Morocco, green tea is infused with freshly plucked mint.

Some scientists believe tea prevents tooth decay because it is a rich source of fluoride. Tea is also a folk remedy for stomach upsets, flu and diarrhoea. Research suggests that drinking tea reduces the risk of heart disease and cancer and lowers cholesterol levels in the blood. A welcome thought for inveterate tea drinkers.
